

BIOL 471 - Evolution
Poster Evaluations - 2012

Your Name: _____

All members of the class are presenting posters. You are to rate each student's overall effort using a single numerical score from 0 to 100. In assigning this score, consider the following questions:

- 1) Is the poster topic interesting?
- 2) Is the presentation suitable for the class?
- 3) How well is text material used?
- 4) How well is graphical material used?
- 5) How well researched is the topic?

Please assign one score to each student (not yourself) based on your answers to these questions.
