Tally		Points	Description
N	x	=	
			Phrase- group of words that go together but doesn't have subject, verb, &/or end punctuation
			Words- any group of letters – spelling doesn't count
			Sentences- groups of words that express a complete idea- may not have end punctuation- maximum of 2 conjunctions connecting independent and/or dependent clauses.
			Spelling accuracy- Number spelled correct divided by total number of words
			Correct letter Sequence (CLS) – two letters that go together in the correct order
			Percent CLS- CLS divided by Total Letter Sequences (TLS)
			Correct Word Sequence (CWS)- two words spelled correctly that go together in the correct order
			Percent CWS- CWS divided by Total Word Sequences (TWS)
		XXXXXX	
		XXXXXX	
	1		Each phrase on the topic
	3		For a sentence that introduces the idea of the paragraph
	2		Each sentence- that contains a detail about the topic
	3		For a sentence that concludes the idea of the paragraph
	1		For each word on topic that is spelled conventionally
	1		For each end punctuation properly used
	Total		Add numbers below the xxxxxx
