- Pictures & Icons

GOALS

## Weaknesses

### Trouble with

- Aphasia-
- Hemi paresis
- Numbers
- Letters
- Words
- Memory

# **Case Manager**

### Chris

- Transportation-

  - Drove around but never arrived at the intended

  - Life coach takes him
- Strangers treat him like he doesn't know

- Lives in a group home
- Content with status quo- doesn't ask for needs
- Uses debit card for most things
- Trouble knowing how to figure out change

# Good snacks

# Life Coach

### Helps with

- Mail & bills
- Groceries
- Drug store
- Doctors appointments
- Other appointments
- Understanding choices & consequences
- Many other things!!!

Blood sugar

Technology used to check

Someone helps him

# Venancio is a WINNER

# Enjoys Activities at the Center

- He can be understood much of the time but
- Sometimes needs to have a way to clarify meanings

### Doctors

### Went to the podiatrist

### Signed in

- Needed help remembering what to tell the doctor
  - Swelling
  - Change in medication
  - Answering questions about blood sugar
  - About exercise and walking
  - Shoes
- When the procedure was painful

### Church

- Friends take him
- Passive participation
- Doesn't talk with many others

### **Stores**

- Wal-mart—
  - Didn't purchase
  - Didn't ask questions
- Chipolte
  - Ordered only with great encouragement
  - Needed persistence for the person to understand what he said

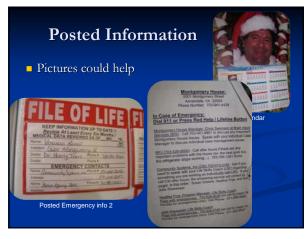

# Communication

- Biggest need for
  - Clarification with friends (sometimes)
  - Greater participation
  - Interaction with paid professionals &
  - Interaction with strangers
- Important- don't include words that can be communicated already!
  - ∎ Yes
  - ∎ No
  - BINGO!

# Communication Cards on Keys

# **Communication Aids**

- Pictures
- Must
  - Anticipate needed phrases and words
  - Add new phrases frequently
  - Find someone to set up and update

# Communication CardsCreatedPurchased \$95.00Image: Display training to client's needsImage: Display training to client's needs

# Tried

- Photo Album
  - Could help
  - Need to find a smaller one
- "Talking" Photo Album
  - Was able to push the buttons to operate it
  - Was a bit cumbersome
  - Took too long to find the picture and activate the button
  - Could yell Bingo much more quickly

### **Other Possibilities**

- Hand held computer with
- Communication software-
