

Fractions and Equivalent Fractions - Write the shaded part as a fraction. Use the cut out below to see equivalent fractions. Draw equivalent fractions on the last three rectangles. Write a list of equivalent fractions.

1. Equivalent Fractions $\square = \square = \square = \square$

2. Equivalent Fractions $\square = \square = \square = \square$

3. Equivalent Fractions $\square = \square = \square = \square$

Cut out the strip below. Lay the strip on top of the above rectangles to see the equivalent fractions!
