EOS 656/EVPP 652/GEOG 570 - **The Hydrosphere**

Homework #5: Snow

1) Find 1-season of a snow time-series in Hydrodesktop (hint – there are some near Fresno).

2) Find two other related time-series, such as precipitation, temperature, or runoff.

3) Tell a Hydrologic story with the data – how are the 3 (or more) datasets related.
